CONSUMER HEALTH

ORGANIZED BY THE AMERICAN ACADEMY OF CLINICAL TOXICOLOGY

CONFERENCE

The North American Congress of Clinical Toxicology (NACCT) is the largest clinical toxicology meeting in the world. This event provides ongoing education in clinical toxicology for more than 700 of the world's leading clinicians, scientists, poison center staff, and executives. Attendees include clinicians and research scientists from poison centers, industry, academia, and regulatory agencies.

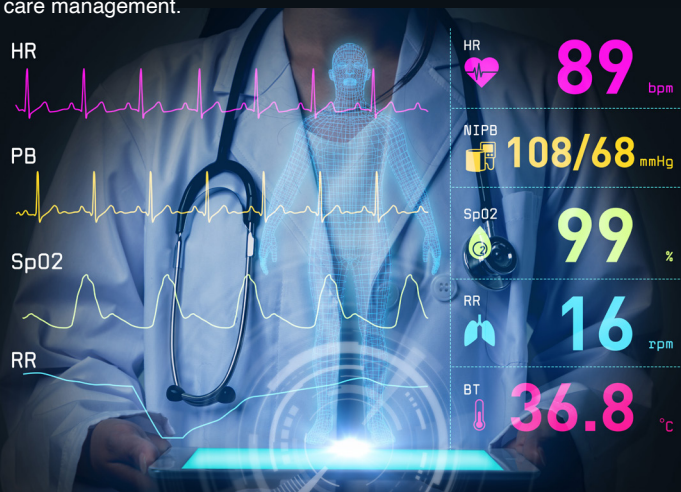

ACMT VIRTUAL PRE-SYMPOSIUM: CRITICAL MEASURES: INTENSIVE CARE TOXICOLOGY OCTOBER 13, 2021

Session organized by:

Andrea Carlson, MD • Christina Hantsch, MD

This one-day virtual ACMT symposium will be a presentation of the intersection of clinical toxicology practice and intensive patient care issues, encompassing the management of both pediatric and adult patients. The symposium's experts will draw from the fields of toxicology, addiction medicine, adult and pediatric critical care, cardiology, nephrology, neurology, and more! Sessions to include plenary presentations, engaging panel discussions, and lively debates. Listen to internationally recognized multidisciplinary experts as they weigh in on critical measures, including:

- Technological advances in the care of critically ill patients, including ventilation strategies, non medication cardiovascular support options, and renal replacement therapies.
- Impact of the pandemic on pediatric substance use and overdose.
- Critical illness caused or complicated by addiction and dependence.
- The reality of workarounds for pharmaceutical shortages.
- Pharmacogenomic considerations on patient management in the ICU.
- Novel therapeutic strategies for toxicologic intervention.
- Sizing up the critical role of the toxicology specialist in patient care management.

Planned speakers include:

Susanna Byram, MD, PhD, Assistant Professor of Anesthesiology and Perioperative Medicine, Loyola University Medical Center

Brenna Farmer, MD, MBA, MS, FACMT, Associate Professor of Clinical Emergency Medicine, Weill Cornell Medicine

Joshua King, MD, FACMT, Assistant Professor of Emergency Medicine, University of Maryland

Judith Wolfe Laney, PhD, Chief, Chemical Medical Countermeasures, Division of CBRN Countermeasures, Biomedical Advanced Research and Development Authority (BARDA), Office of the Assistant Secretary for Preparedness and Response, Department of Health and Human Services

Lewis Nelson, MD, FACMT, Chair of the Department of Emergency Medicine, Rutgers New Jersey Medical School, Newark, NJ

Laura Tormoehlen, MD, FACMT, Associate Professor of Clinical Neurology, Indiana University School of Medicine

Stephanie Weiss, MD, PhD, Addiction Medicine Research Fellow, Wake Forest Baptist Medical Center

Tim Wiegand, MD, FACMT, Director of Addiction/Toxicology, University of Rochester Medical Center

After participating in this program, learners will be able to:

1. Effectively employ technological devices in the management of poisoned patients.
2. Discuss complex pain, sedation, and withdrawal management.
3. Utilize new, repurposed, and tailored pharmaceutical interventions.
4. Understand the advantage of involving the toxicology specialist in clinical care.

AACT PRE-SYMPOSIUM: DROP DEAD GORGEOUS OCTOBER 14, 2021

Session organized by:

Jillian Theobald, MD, PhD • Rana Biary, MD

We live in a world of Instagram and social media. To fit into what society deems to be beautiful, people go to great lengths to defy aging and modify their bodies. This symposium will highlight some of the methods people take to get those "likes". The symposium will cover "do-it-yourself" medicine, crash restrictive diets, specialty procedures, and toxic make-up. It will also include unusual methods for mental, psychological or physical enhancements. So join us, watch and learn, and then make sure to give the symposium a "like".

After participating in this program, learners will be able to:

- Discuss the toxicologic consequences of crash restrictive diets.
- Be aware of the complications of pharmaceutical and non-pharmaceutical weight loss agents.
- Discuss the toxicities associated with liposuction.
- Understand the process of FDA testing and approval for cosmetic products.
- Review different toxicities associated with make-up and other cosmetic products.
- Understand the risks associated with detoxes and cleanses.
- Discuss the toxicity of essential oils and injectables.
- Review the risks of enemas.
- Review abortifacients and their toxicity.

MAIN CONGRESS HIGHLIGHTS AND OBJECTIVES OCTOBER 16-18, 2021

- Systemic Racism, Allyship, Environmental Injustice And Our Role in Toxicology
- The Great Debate: Pros and Cons of Antidotal Therapies
- Surreptitious Masquerades in Pediatric Toxicology Consults: The (Un)usual Suspects
- Emergency Medicine Pharmacology: How to protect and advise my drug injured patient
- Drugs in Breast Milk and Medico-Legal Implications
- Exotic Snakebites in the United States
- ACMT 22nd Annual Clinical Pathological Case (CPC) Presentation Competition
- Updates in Impaired Driving
- Clinical Studies with Calmangafodipir in Acetaminophen Overdose
- Using Genetics to Select Safer Targets and Drugs
- Cancer Treatments at Home and MethotrexHATE
- Pesticide Educational Resources Collaborative - Medical: Educating Medical Professionals About Pesticide-Related Illness
- Cannabinoid Update; CBD, Delta-8 THC, and Beyond
- Child Labor and Work-Related Toxic Exposures
- The Acute Intensive Care Scientific Symposium
- Toxicological Challenges and Opportunities in the Middle East and North Africa Region
- Scoring to Get High or the HII Score? Importance and Implications for Forensic and Clinical Toxicologists
- Toxicology in the Era of COVID-19: The European Perspectives
- Prepare for Perfection on Your Next Medical Toxicology LLSA examination!

Objectives:

1. Discuss systemic racism, diversity, and allyship in the field of toxicology. Explore examples of environmental injustice, their public health implications, and the role of toxicology.
2. Review the pharmacology, physiology, and toxicology of drugs in breast milk and the medico-legal implications.
3. Summarize clinical studies describing the use of calmagafodipir in the treatment of acetaminophen toxicity, and explain how knowledge of a patient's genetic information can help individualize patient therapies.
4. Provide an overview of the toxicologic challenges facing the Middle East and North African regions, including snake envenomations and natural poisons unique to those areas.
5. Discuss the toxicity of approved and unapproved therapies used in the treatment of COVID-19, and the changes in poisoning epidemiology and severity during the COVID-19 pandemic in Europe.
6. Debate the pros and cons of the antidotal use of physostigmine and lipid emulsion therapy.
7. Explore risk factors for adverse drug events in the emergency department, mitigation strategies to prevent errors, and an evidence based approach to restarting medications following overdose.
8. Identify oral chemotherapeutic exposures requiring specific management, and explore methotrexate toxicity and treatment strategies.
9. Illustrate the dangers of often overlooked pediatric occupational exposures, review industries in which child labor is frequently utilized, and discuss workplace assessment and child labor laws.
10. Describe the impairing effects of various drugs on driving skills, and explore multiple aspects of impaired driving including: impaired driving recognition, litigation, and prevention initiatives.

KEYNOTE SPEAKER:

Dr. Daniel Ciccarone

On speedballs and goofballs: exploring why stimulants have become more deadly.

Dr. Daniel Ciccarone is the Justine Miner Professor in Addiction Medicine, in the department of Family and Community Medicine, at UCSF. He has been principal or co-investigator on numerous NIH sponsored public health research projects including his current Heroin in Transition study. He is a recognized international scholar on the medical, public health and public policy dimensions of substance use, risk and consequences. He is Associate Editor for the International Journal of Drug Policy and recently edited an IJDP special issue on the "triple wave crisis" of opioids, heroin and fentanyl in the US. He consults for numerous private and public entities including the ONDCP, CDC and FDA.

CONTINUING EDUCATION CREDIT

JOINTLY ACCREDITED PROVIDER
INTERPROFESSIONAL CONTINUING EDUCATION

Accreditation Statement (LIVE): In support of improving patient care, this activity has been planned and implemented by Amedco LLC and The American Academy of Clinical Toxicology. Amedco LLC is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

Nurses (ANCC): Amedco LLC designates this activity for a maximum of 37.25 ANCC contact hours.

Physicians (ACCME): Amedco LLC designates this live activity for a maximum of 37.25 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Pharmacists: Amedco LLC designates this activity for a maximum of 37.25 knowledge-based CPE contact hours.

NOTE to Pharmacists: The only official Statement of Credit is the one you pull from CPE Monitor. You must request your certificate within 30 days of the activity to meet the deadline for submission to CPE Monitor.

Accreditation Statement (Enduring): In support of improving patient care, this activity has been planned and implemented by Amedco LLC and The American Academy of Clinical Toxicology. Amedco LLC is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

Nurses (ANCC): Amedco LLC designates this activity for a maximum of 55.00 ANCC contact hours.

Physicians (ACCME): Amedco LLC designates this enduring material for a maximum of 55.00 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Pharmacists: Amedco LLC designates this activity for a maximum of 55.00 knowledge-based CPE contact hours.

NOTE to Pharmacists: The only official Statement of Credit is the one you pull from CPE Monitor. You must request your certificate within 30 days of the activity to meet the deadline for submission to CPE Monitor.

Public Education Track Session Preview:

Straight Talk About Stigma: An Educator's Approach

Sunday, October 17, 9:30am-11:00 am

Millions of people in the US live with a substance use disorder (SUD). Healthcare providers have effective tools to treat SUD, including medication-assisted treatment (MAT), but they are not utilized widely enough, in part due to stigma.

Session attendees will analyze the social consequences related to the stigmatization of substance use, and what poison centers can do to help reduce the burden. This session will be led by frontline non-profit leaders.

Improving Accessibility for Health Literate Digital Content

Saturday, October 16, 10:00am-11:00am

From social media and websites to virtual presentations and videos, digital and online content is both a necessity and a likely reality for reaching our audiences with important poison prevention messages.

Expanding on the 2020 NACCT session addressing healthy literacy, this session will focus on the application of health literacy principles in digital outreach and education.

Debunking misinformation

Saturday, October 16, 10:00am-11:00am

Misinformation, both perpetuated by those in bad faith or those who missed opportunities in times of crises, can have harmful effects on individual and public health. This session will be virtually led by the Johns Hopkins Center for Health Security, where they will outline their priorities for a national strategy to combat online misinformation, including their lessons learned from Ebola and COVID-19.

The session will also instruct on best practices for communicating about science, with the special aim of elevating poison control centers as a trusted source of medical information.

Poisons in Pop Culture!

Monday, October 18, 10:30am-11:30am

This year the PEC brings back a popular session that requires your poison knowledge to answer questions about poisons of the past and recent popular culture. If you know all about cultural fascinations with poisons or want to know more, this session is for you. Come test your poison knowledge!

GROUP DISCOUNTS FOR POISON CENTERS

Tuition discounts are given to groups of 5 or more registering for the complete Main Congress and from the same Poison Center. To qualify for the group discount, all registration information must be complete for all group members, payment included, and forms sent together.

Registration forms may be e-mailed to nacctinfo@meetingpriorities.com.

Groups may not be formed after individual registrations have been received.

TO REGISTER

ONLINE: Go to www.clintox.org

Purchase Order, Visa, MasterCard or American Express only.

MAIL: NACCT Attn: Registrar • 10408 Clinton Ave, Silver Spring, MD 20902

Check payable to NACCT

CONTINUING EDUCATION

This program was designed in accordance with the Accreditation Council for Pharmacy Education Quality Criteria and the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education. Application has been made to the National Commission for Health Education Credentialing, Inc. (NCHEC).

Over 37.25 Live hours of continuing education will be available for physicians, pharmacists and nurses, as well as approximately 11.5 CHES hours for educators.

Registration must include full payment in US Funds to be processed. A \$30 fee is charged for any returned check or declined credit card.

Purchase Orders: Purchase Orders must be received with registration by the conference date and include the P.O. number, invoice address, tuition, approval signature, and contact name, e-mail address and phone number.

Confirmation of registration will be sent via email.

Cancellations received after September 13, 2021 will be assessed a \$150 processing fee.

If you have a disability requiring an auxiliary aid or special service while attending this meeting, please call (925) 640-7715, no later than September 13, 2021.

Changes in Registration Status:

NACCT will make changes to your registration if your plans change between virtual and in-person attendance. The deadline for changes without an administrative fee is October 1, 2021. Any changes after that date will be charged an additional \$50 admin fee.

Please contact Sarah Gerfen at sarah@meetingpriorities.com.

RESERVATIONS

[Click Here](#) to reserve your room at the Hyatt Regency Atlanta. Reservations must include first night's deposit. Make your room reservation before Friday September 23, 2021

RATES

\$149.00 USD

Single or Double Occupancy

Rates are per room and subject to prevailing taxes and fees.
Rates available from October 15-18, 2021

Hyatt Regency Atlanta is just minutes from attractions like the Georgia Aquarium, King Center, World of Coca-Cola and College Football Hall of Fame — plus Ponce City Market, Piedmont Park, the BeltLine walk and bike path, neighborhood shops and outdoor dining.

All our rooms feature separate living and work areas, with views including the Atlanta skyline or our inviting pool. The Deluxe Suite offers two balconies with city views, a dining table and bar, a living room, and other amenities.

ATLANTA

GEORGIA

Atlanta is located in north/central Georgia. It is home to over 10 Fortune 500 companies, including household names such as The Coca-Cola Company, Delta Airlines, Home Depot, and UPS. In fact, as of 2005, the Atlanta metropolitan area was ranked third behind New York and Houston on the list of cities with the most Fortune 500 headquarters.

Think about your interests: theme parks, gardens, art, theater, music, museums, historic battlefields... Atlanta's got all of those and then some in its diverse attractions. Downtown Atlanta is home to CNN, The World of Coca-Cola, Centennial Olympic Park, the Georgia Aquarium and the National Center for Civil & Human Rights. Historic Auburn Avenue marks Martin Luther King Jr.'s legacy, while neighborhoods like Grant Park, Buckhead, Kennesaw and Marietta claim home to various Civil War sites. Six Flags Over Georgia lies west of the city, while the famed High Museum of Art, Piedmont Park, Atlanta Botanical Garden and Fox Theatre are in central Midtown.

Atlanta's nightlife is legendary. Atlanta offers just about everything imaginable from dance clubs to sports bars. Many establishments offer live entertainment, including some excellent rhythm and blues. The best place to look for coming events is the Atlanta Journal-Constitution's Friday "Weekend Preview" or Saturday "Leisure" sections. Atlanta Magazine and Atlanta Magazine Online are also good sources of information about dining, events, and attractions.

ONLINE REGISTRATION AVAILABLE
