Hotel Accommodations & Travel

Hotel

The Fairmont The Queen Elizabeth, 900 Rene Levesque Blvd West, Montreal, Quebec is just minutes from area attractions, neighborhood shops and dining. A limited block of rooms at the discounted rate of \$379 CDN single/double is available so confirm your stay in the headquarter hotel. Individuals can make their reservations online at <https://book.passkey.com/go/NACCT2023>. Individuals can also make reservations by calling 1.888.495.2126. The deadline to book is August 25, 2023.

Getting There

Please note that all attendees that do not reside in Canada will need a valid **passport** to travel to Montreal, Quebec. While traveling, it may be useful to have an agency letter with your travel documents and/or shipments. Please visit clintox.org/nacct to download.

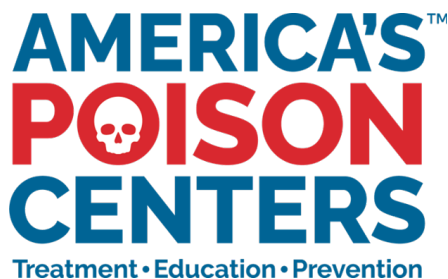

About the Partners

American Academy of Clinical Toxicology (AACT)

AACT was established in 1968 as a not-for-profit multi-disciplinary organization uniting scientists and clinicians in the advancement of research, education, prevention and treatment of diseases caused by chemicals, drugs and toxins.

American Academy of Clinical Toxicology | www.clintox.org

America's Poison Centers

America's Poison Centers represent 55 Poison Centers across the country. We are united in our cause to prevent poison-related health emergencies in America. Through our national Poison Help line (1-800-222-1222) and website, PoisonHelp.org, the organization provides all Americans expert advice from nationally accredited medical specialists about poison ingestions and exposures of all kinds, including from medications, insects or chemicals, 24/7/365, at no cost. We also maintain the National Poison Data System® (NPDS), our nation's only near real-time poisoning data surveillance system, integrating the latest information from across Poison Centers. Together, America's Poison Centers ensure a national quality standards for the detection, prevention, and treatment of poison-related health emergencies.

America's Poison Centers <https://www.poisoncenters.org>

Welcome!

On behalf of the NACCT planning committee, we are very excited to see all of you in the beautiful city of **Montreal**. NACCT is the place where we can get together to learn, to discuss new innovation in the field of toxicology, to build relationships with our sponsors and to gather with friends, both old and new.

Many of the sessions that you know and love will take place this year in addition to some new things! NACCT will kick off with two pre-meeting symposia presented by ACMT and AACT. And of course, the annual ACMT's CPC competition will take place following the second day of pre-symposia. Don't forget to brush up on pop culture and trends for America's Poison Centers Quiz Bowl. We are also introducing a new type of scientific symposia called **ToxLab**. ToxLab content will showcase new and innovative education techniques.

We are very lucky to have **Dr. Joanne Liu** as the keynote speaker. Her career and accomplishments are exemplary and she is sure to be a great kick-off to the main congress.

For those of you that are newcomers to the meeting, we welcome you and look forward to meeting you. We know that your first meeting can be overwhelming so this year, we have a "**Crash Course for NACCT**" on the first day of the main congress to get you acquainted. Please stop in, say hello, and learn how to get the most out of the meeting!

Taking care of ourselves is crucial and allows us to be the best version of ourselves. We have several wellness activities throughout the meeting. When you need a break from the rigorous scientific content, you can enjoy some quiet time in our new **Wellness Room**; shake your legs out by running or walking in the 2nd annual **Fun Run/Walk**; and/or bring your yoga mat and practice **sunrise yoga** to stretch out your hips before your trip back home. This year, we will be donating the proceeds from the Fun Run and yoga to the **Montreal Addictions Foundation** to give back to the local community that is hosting us.

Whether you are a student, resident, toxicology fellow, specialist in poison information, toxicologist, or educator, we have global experts providing groundbreaking content with nearly 35 hours of **CME** and 15.5 **CHES/MCHES** credits.

Join the conversation on Twitter by following **@AACTinfo**, **@PoisonCenters** and **#NACCT2023**.

This meeting would not happen without all your contributions. We sincerely appreciate each and every one of you! We look forward to seeing all of you in September!

1:30 PM - 2:30 PM	AACT Radiation Section Symposium: Current and Future Activities of REAC/TS CBL For Radiological/Nuclear Emergencies	1	1	1	0

Keynote Speaker

Dr. Joanne Liu

Physician and Professor at McGill University

Dr. Liu is a Canadian practicing paediatric emergency physician and professor at McGill University's School of Population & Global Health where she focuses on pandemic and health emergencies. Prior to joining McGill, Dr. Liu began her career with Médecins Sans Frontières/Doctors Without Borders (MSF) in 1996, joined over 30 field assignments where she coordinated emergency medical aid and responded to humanitarian and health emergencies including outbreaks/epidemics in Central Africa, Middle East, Central Asia, South East Asia, Caribbean & Central America.

She went on to serve as the International President of MSF for over six years from 2013-2019. At the helm of MSF, she has been a leading voice on medical humanitarian crises, namely in Ebola outbreak of West Africa, attacks on hospitals and forced displacement crisis and has engaged with world leaders at the highest levels.

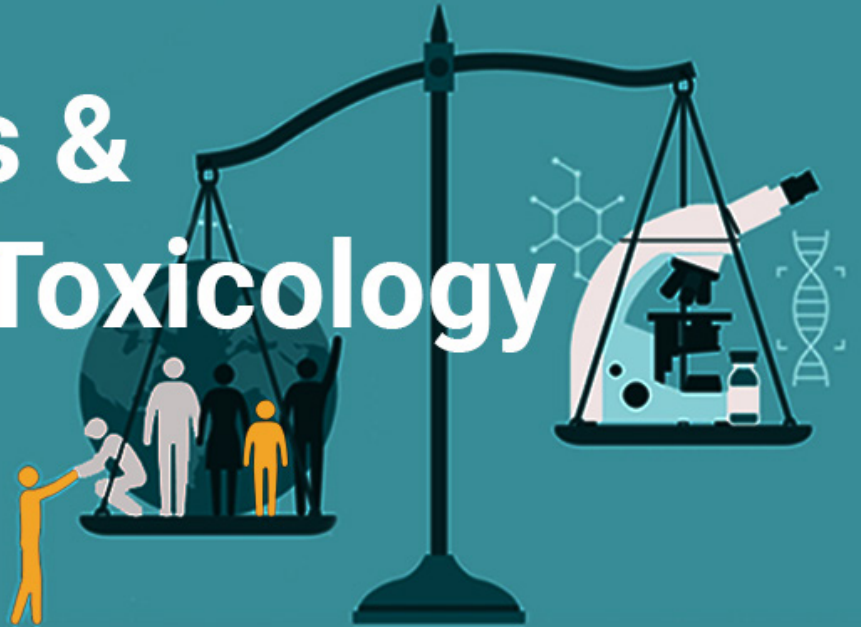

Dr. Liu's operational work has ranged from introducing comprehensive care for survivors of sexual violence, to developing a telemedicine platform for connecting doctors in rural areas with specialists worldwide.

Dr. Liu graduated from the McGill University School of Medicine in Montreal in 1991 and did her pediatric specialty training at University of Montreal. She holds a Fellowship in Paediatric Emergency Medicine from New York University School of Medicine as well as an International Master's in Health Leadership, also from McGill University. She remains a practicing doctor, both in the field with MSF and also through hospital shifts in her home town of Montreal. She believes strongly in bringing and delivering high-quality, patient-centred care in all medical work contexts.

Dr. Liu is currently a member of the Independent Panel on Pandemic Preparedness and Response, established by the World Health Organization (WHO) to provide an evidence-based path for the future to ensure countries and global institutions effectively address health threats. She is a board member of the Centre for Humanitarian Dialogue and the New Humanitarian. She is on the international advisory board of two Lancet Commissions: The Global Listening Project and NUS-Lancet Pandemic Readiness, Implementation, Monitoring and Evaluation (PRIME) Commission.

ACMT Pre-Symposium

Bioethics & Medical Toxicology

September 27, 2023

This one-day ACMT symposium will be a presentation centering on ethical issues in medical toxicology. The symposium's experts will draw from the fields of toxicology, addiction medicine, law, and bioethics to advance understanding and collaboration on some of the most pressing issues in toxicology today. Ethical considerations in research and clinical care will be explored. The impact of media-driven medical misinformation on public health and patient safety will also be examined. Sessions to include plenary presentations, engaging panel discussions, and lively debates.

AACT Pre-Symposium

MY FAVORITE RECEPTOR...

Join us as we dig deep into the cell, down to the lipid bilayer of the cell membrane and the receptors nestled among the fat. Listen in on the reactions of ligands knocking on proteinaceous doors asking them to open. Channel (get it, channel?!) your inner toxicology enthusiast as we delve into the dirty details of the most loved receptors in toxicology.

TOPICS:

Adenosine
Ryanodine
Muscarinic
Nicotinic
GABA
Glycine
Sodium Channels
Potassium Channels
Dopamine
NMDA
5HT

Educators Track

September 29- October 1, 2023

Join us for these exciting sessions and more!

September 29, 2023
2:00 PM – 3:00 PM

Creating Effective Videos for Education and Outreach

Video creation and editing has become more accessible in the past decade. However, there are various methods of creating videos based on budget considerations and a user's experience level. This session aims to educate participants of the basic knowledge needed to break into video creation, editing and publishing to encourage social media outreach within poison centers.

September 29, 2023
3:15 PM – 4:15 PM

Cannabinoids: Types, Exposures, and Trends

PEC / SPI Crossover Session

Poison Centers have seen major increases in Cannabinoid exposures in the last two years among children 12 years and under. With the legalization of cannabinoid products for medicinal and recreational use cannabinoid products are more readily available. This session will introduce the chemical make-up of Cannabinoids, review different products types, current trends, intentional/unintentional exposures and provide an in depth look at pediatric cannabinoid exposures.

September 30, 2023
10:00 AM – 11:00 AM

Environmental Toxicology: Canadian Approach

The field and expertise of environmental health and toxicology focuses on the prevention of health problems caused by or aggravated by biological, chemical, or physical contamination of different environments (water, field, food, etc.), the protection of the health of the population as well as the social repercussions caused by certain environmental problems. Explore environmental toxins frequently reported in Canada with guest speaker Dr Stéphane Perron from the Institut National de Santé Publique du Québec.

September 30, 2023
1:00 PM – 2:00 PM

Toxic History of Quack and Sham Treatments

Medical toxicologist and historian Adam Blumenberg, M.D. will discuss the history of quack and sham treatments in the late 19th and early 20th centuries including, how these treatments influenced medicine, the regulation of dangerous substances and the development of the FDA.

Fun Run/Walk and Yoga for a Cause

In an effort to give back to the local community, we are taking donations to go to Montreal Addictions Foundations, [click here](#) to learn more about this worthy organization. Register for each event when you register for the meeting. Cost: donation optional.

Fun Run/Walk

Everyone needs to get outside and move after long days of scientific sessions and meetings. Start your Saturday morning with friends and colleagues for a 5K Fun Run/Walk. After a wildly successful inaugural run in 2022, this year will be even better! Come RUN or WALK with us in Montreal on Saturday morning at 6:45 am. [Click here](#) to download the Strava App and join the AACT Run Cub.

The Fun Run and Walk will have something for everyone. Whether you would like to just take a morning stroll or want to get a little competitive with your colleagues, this is the perfect event!!

Yoga

By the end of NACCT, we all need a little stretch! Join us on Sunday morning for sunrise yoga! April Annell is a yoga teacher and business educator from [Innergy Corporate Yoga](#) will take us through a 45 minute flow to energize us for the day and prepare us for the trip back home. All levels of yoga are welcome! Register for the event when you register for the meeting! Yoga mats are not provided so don't forget to pack your yoga mat in your suitcase!

[Innergy Corporate Yoga](#), founded in 2004 in Vancouver, BC, specializes in bringing yoga and meditation into the workplace both virtually and in-person across Canada and into the United States. Yoga is a great addition to corporate wellness programs reducing stress, anxiety, and depression, improving memory and focus. It's a welcomed break to a busy work day, leaving co-workers feeling refreshed and re-energized.

About the Instructor

April Annell is a yoga teacher and business educator. Her work empowers those around her to lead conscious lives, manage their energy, and access their inner strength at all stages of their lives. April has studied alignment-based Vinyasa, Yin, Restorative yoga and meditation with a variety of teachers and remains dedicated to deepening her practice. She provides yoga movement and mindfulness sessions at conferences and in group and private classes across the country.

Sponsorship & Exhibit Opportunities

Sponsorship Opportunities Available

Interested in positioning your company as an essential NACCT partner? Check out the [2023 Exhibitor and Sponsor Prospectus](#) for opportunities ranging from \$2,000 - \$20,000. Custom opportunities are also available.

Exhibit at NACCT

The benefits of NACCT exhibitors are endless! Email nacct@clintox.org to fill out an exhibitor application today. All 10x10 booths come with a portfolio of benefits including:

- ♦ Dedicated breaks in the exhibit hall to promote traffic
- ♦ Three different rotating poster sessions in the exhibit hall
- ♦ Lounge areas and places for attendees to gather and network
- ♦ Scavenger hunt encouraging interaction in the exhibit hall
- ♦ Benefits of the Exhibitors
- ♦ Opportunities to network one-on-one with clinical toxicologists and poison center professionals
- ♦ Access to decision makers
- ♦ Complimentary listing in program materials and mobile app
- ♦ Company logo on signage
- ♦ Company logo and link on partners' websites
- ♦ Authorized use of NACCT logo
- ♦ List of registrants 3 weeks prior to the conference

Accreditation Statement

Joint Accreditation Statement

Description automatically generated In support of improving patient care, this activity has been planned and implemented by Amedco LLC and American Academy of Clinical Toxicology. Amedco LLC is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

Nurses (ANCC) Credit Designation

ACMT Pre-Symposium: Bioethics in Toxicology, September 27, 2023: Amedco LLC designates this activity for a maximum of 6.50 ANCC contact hours.

AACT Pre-Symposium: My Favorite Receptor, September 28, 2023: Amedco LLC designates this activity for a maximum of 6.50 ANCC contact hours.

NACCT 2023, September 29 - October 1, 2023: Amedco LLC designates this activity for a maximum of 22.00 ANCC contact hours.

Physicians (ACCME) Credit Designation

ACMT Pre-Symposium: Bioethics in Toxicology, September 27, 2023: Amedco LLC designates this live activity for a maximum of 6.50 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

AACT Pre-Symposium: My Favorite Receptor, September 28, 2023: Amedco LLC designates this live activity for a maximum of 6.50 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

NACCT 2023, September 29 - October 1, 2023: Amedco LLC designates this live activity for a maximum of 22.00 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Pharmacists and Pharmacy Technicians (ACPE) Credit Designation

Note to Pharmacists: The only official Statement of Credit is the one you pull from CPE Monitor. You must request your certificate within 30 days of your participation in the activity to meet the deadline for submission to CPE Monitor.

ACMT Pre-Symposium: Bioethics in Toxicology, September 27, 2023: Amedco LLC designates this activity for a maximum of 6.50 knowledge-based CPE contact hours.

AACT Pre-Symposium: My Favorite Receptor, September 28, 2023: Amedco LLC designates this activity for a maximum of 6.50 knowledge-based CPE contact hours.

NACCT 2023, September 29 - October 1, 2023: Amedco LLC designates this activity for a maximum of 22.00 knowledge-based CPE contact hours.

Continuing Education

This program was designed in accordance with the Accreditation Council for Pharmacy Education Quality Criteria and the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education. Application has been made to the National Commission for Health Education Credentialing, Inc. (NCHEC).

Over 35 hours of continuing education will be available for physicians, pharmacists and nurses, as well as approximately 15.5 CHES/MCHES hours for educators.

After the Fact CE Program

Can't Attend? No problem! Interested in the content but cannot travel this year? All 2023 NACCT content, including the pre-symposium, will be recorded and available for purchase in November 2023. Members and non-members can purchase access to the After the Fact CE Program and obtain CE for up to one year after the conclusion of NACCT 2023. Visit clintox.org/nacct to sign up for email notifications about After the Fact CE.
