Short Biography

My name is Bryan Kuhn and I'm a pharmacist and clinical toxicologist with the Banner Poison & Drug Information Center (BPDIC) located at Banner University Medical Center Phoenix (BUMCP) in Arizona. I graduated from Midwestern University in Downers Grove, IL in 2000 and went on to complete post graduate training at Broward General Medical Center in Florida and specialty training in emergency medicine at Detroit Receiving Hospital in Michigan. I began my poison center career with the California Poison Control System - San Diego in 2006 and have been with BPDIC since 2017. I serve as the clinical educator for BPDIC staff development and primary preceptor for pharmacy and medical students and residents. I achieved status of Diplomate of the American Board of Applied Toxicology (DABAT) in 2021 and became the program director for the newly created Clinical Toxicology & Emergency Medicine Fellowship at BUMCP in 2022. I'm an active member of ACMT, ABAT, and AACT. In my free time I serve as the principal pharmacist on annual medical missions with DOCARE international to San Andres Itzapa, Guatemala and monthly medical missions with Flying Samaritans Arizona to Puerto Adolfo Lopez Mateos, Mexico. I have two dogs, Taco Gary and Pan Dulce, both of whom are cattle dogs.

Position Statement

Fellow ABAT members, I'm Bryan and I'm honored to seek your support for the **ABAT Advisory Board**. As a pharmacist of 26 years and clinical toxicologist since 2021 working side by-side with medical toxicologists on an inpatient admitting and consult service I'm well aware the impact the unique credentialing within our profession offers. ABAT is the organization that champions our value, advances our mission, and connects our community. I want to help make that work stronger. If elected, I will focus on strengthening ABAT's voice in interdisciplinary policy and improving member communication and engagement, because our members deserve a board that is not only engaged, but actively moving our profession forward. I am committed to showing up with energy, transparency, and purpose. I'm grateful to Adam Overberg for this nomination, and I would be honored to earn your vote. Thank you for your consideration.
