

Medical Statistics Editor

Clinical Toxicology Journal — Recruitment 2026

Clinical Toxicology is currently recruiting for a Medical Statistics Editor, with the role set to begin January 1, 2027.

This is a strong opportunity for an academic with a background in medical statistics who is also committed to contributing to a peer-reviewed journal. The Medical Statistics Editor will be responsible for performing statistical reviews of selected articles under consideration for publication.

Beyond the review work itself, the role offers a chance to build professional networks, develop and promote research, and be recognized as a leading figure within the academic community.

The Successful Candidate Will Have

- At least an MSc in Medical Statistics (or equivalent) and preferably a current position within a university department
- Some experience in academic publishing and familiarity with the publication process
- Expertise in and access to statistical software packages such as SPSS, JMP, SAS, or GraphPad Prism
- The capacity to dedicate time to the role, including attendance at online meetings and training sessions
- Strong communication skills for working with the Editor-in-Chief, Associate Editors, and Taylor & Francis staff
- The ability to conduct statistical reviews in a prompt, consistent, ethical, and professional manner
- Enthusiasm for contributing to the ongoing development of the journal

The Successful Candidate Will Receive

- An annual Editor Expense payment
- Free online access to the journal
- A 30% discount on books at Routledge
- Formal recognition on the journal's Editorial Board page

How to Apply

If this sounds like the right opportunity, Clinical Toxicology encourages you to apply — or to share this with a colleague who may be a strong fit.

Application deadline: September 9, 2026
